## Experience

- |                                                                                                                                                                                                                                                           |                                    |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------|
| <b>University of Ostrava — Department of Physical Geography and Geoecology</b> , Assistant Professor <ul style="list-style-type: none"> <li>• Research and teaching in geomorphology</li> <li>• Landslides and large-scale landscape evolution</li> </ul> | Ostrava, Czechia<br>2020 – present |
| <b>University of Ostrava — Department of Physical Geography and Geoecology</b> , Researcher <ul style="list-style-type: none"> <li>• Research and teaching in geomorphology</li> <li>• Landslides and large-scale landscape evolution</li> </ul>          | Ostrava, Czechia<br>2017 – 2019    |

## Research Projects

- |                                                                                                                                                                                                                                                                                                                               |             |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>The largest rock-mass spreading on Earth: why in arid Patagonia? (GAČR 23-07310S)</b><br>Team member — PI Prof. Tomáš Pánek (Czech Science Foundation) <ul style="list-style-type: none"> <li>• Fieldwork, numerical modelling, radar interferometry (InSAR), interpretation and IF publications</li> </ul>                | 2023 – 2025 |
| <b>Prevention of Geo-Threats to Azerbaijan's Energy Independence (NATO SPS G5907)</b><br>Team member — PI Prof. Alessandro Tibaldi (NATO Science for Peace and Security) <ul style="list-style-type: none"> <li>• Fieldwork, numerical modelling, radar interferometry (InSAR), interpretation and IF publications</li> </ul> | 2022 – 2025 |
| <b>Giant landslides in glacier forelands: the missing piece of the Patagonian Ice Sheet story (GAČR 19-16013S)</b><br>Team member — PI Prof. Tomáš Pánek (Czech Science Foundation) <ul style="list-style-type: none"> <li>• Fieldwork, modelling, interpretation and IF publications</li> </ul>                              | 2019 – 2022 |
| <b>Sackung in unglaciated mountains: deep-seated slope deformations in the Outer Western Carpathians (GAČR 17-17712S)</b><br>Team member — PI Prof. Tomáš Pánek (Czech Science Foundation)                                                                                                                                    | 2017 – 2019 |

- Inventory mapping, DMR4G/DMR5G analysis, fieldwork (mapping, structural measurements, sampling for dating, geophysics)

## Research Stays & Fieldwork

---

### University of Milano-Bicocca, Italy

June 2022

Research stay with Prof. Federico Agliardi

### Antarctica — James Ross Island

2019

Member of the Czech scientific expedition (lead: Doc. Daniel Nývlt)

### Massey University, New Zealand

2018

Research stay with Dr. Sam T. McColl

### Summer School on Rockslides and Related Phenomena

2016

Tien Shan, Kyrgyzstan

### Polar Ecology Course

2013

Svalbard — University of South Bohemia

### Erasmus — Stockholm University, Sweden

2012

Department of Physical Geography and Quaternary Geology

## Professional Membership

---

### Czech Association of Geomorphologists

- Chair (2025–present)
- Member (2016–2025)

## Skills

---

### Geospatial

### Methods

### Fieldwork

## Languages

---

### Czech

Native

### English

Professional working proficiency

## Interests
